PROJECTS

- Checkout some of my projects, [clique aqui](#).
- I recently made an [App](#) on React using a public API, PokeApi.

ACHIEVEMENTS

- My biggest project was a studio for DJs to be able to create their own songs using preset rhythms for over 2,000 users;
- I develop and build WordPress plugins that helped my business gain flexibility for different designs and speed..
- I am currently struggling to implement Reactjs or Vuejs in the company I work for..

INTERESTS

I take time to update myself on new technologies to be able to apply in projects
